Landscape Format Writing Pad

Who thought you could re-invent the legal pad? With wide format pads, you can take notes in the digital age. Even works in airline trays! Pads feature heavy 20 lb. paper. 80 pt. chipboard back. Quad Ruled, 11 x 9-1/2, White, 40 Sheets/Pad.

ROA-74505 **\$2.99/ea**

Employee Favorite: "I love this product. It is so handy. Being wider and shorter, it fits on the side of my keyboard/desk better than the portrait style note pads. It gives me more space to finish thoughts/notes without wrapping the sentence(s) as often. And my left-handed daughter saw this product and LOVES it. It is much easier for her to write out thoughts and notes because she can SEE more of what she is writing. It is a wonder why this style of note pad was not invented / marketed long ago..... very handy. Oh, and they come in a case of 12 pads and are made in America from recycled paper !!"

DID YOU KNOW ?

France's Eiffel Tower can grow by more than 6 inches in summer due to the expansion of the iron on hot days.

Competitive Prices!

Pilot® G-2 Mechanical Pencil

Contoured rubber grip provides exceptional writing comfort. Translucent barrel lets you see how much lead you have left. Produces dark, crisp lines for a great alternative to woodcase pencils.

DryLine® Ultra Correction Tape Pen

Tape lays down absolutely smooth and dries instantly with no mess, so you never need to wait for it to dry before copying, faxing, rewriting or typing. Flip back top makes it easy to refill -- just open the top, slide the empty refill out, slide the new refill in and snap shut.

PAP-1777626 **\$2.99/ea**

Employee Favorite:

"Far and away the best office and my favorite office product is correction tape! Just the other day I was able to use it to cover a small spill on my shirt before seeing a customer. I have changed many drawings, removed and added products to layouts and doctored all sorts of documents with correction tape. I did the same with liquid paper but believe me correction tape is the way to go. All people should carry it in their pocket, have it in their car, at home and absolutely at the office!"

DID YOU KNOW ?

The frequency of a cricket's chirps fluctuates with the temperature. If you count the chirps for 15 seconds and add 37, you will have the approximate temperature (in Fahrenheit).
